PRP MASTER - Jun 29 10am.docx

Chris

So we're all working off the same most recent version of the PROP/PRP, attached is today's 10 a.m. version.

Here's a summary of where things stand:

Summary of things done in this draft:

- Canada vs US order: Alternated chapter by chapter (not tracked) – so in Executive Summary US 1st, Canada 2nd; in Intro has Canada 1st, US 2nd; etc. The order of the domestic actions sections mirrors the annex's Canada vs US order (not tracked)
- Addressed minor formatting - e.g. punctuation (not tracked).
- Addressed other consistencies e.g., not capitalizing govt's (unless specifically GoC / GoUS), waters of the GLs, or GL basin (where not in a report title); and consistency of title headers
- Articles chapter – as suggested, a new chapter was created for Articles reporting section; intro text was included and title adjusted
- Tried to remove as many comment boxes as possible (for eg. where edits within the text were made the comment box was deleted); there are a number of Chris K comment boxes remaining that are direction to US EPA staff.
- Annex 2: includes input from John Marsden to address Mike's comments
- Annex 3: includes changes from EPA – minor/consistency edits from ECCC incorporated
- Annex 4: new edits from ECCC; waiting on review of Canadian domestic text from Sue Humphrey
- Annex 5: only minor/grammatical edits have been made so as not to require significant review / re-approval by TC; only 1 question could be asked of A5 Co-Leads re. Oil & HPS text. Draft sent to Co-Leads for their take but Chris W only back Jul 5.
- Annex 6: new version from Jamie sent to Co-Leads for input on the notion of revising to capture Asian carps as a special focus area. Gavin (CDN annex lead, fisheries and oceans Canada) not in agreement with new version – moving Asian carp text to new section weakens other text areas. An Asian carp story box can still be added along with the newer edits/info. A Co-Leads discussion is pending. My (Carla) perspective is that we keep to minimal changes so as to ensure timely Canadian approvals.
- Annex 7: input from CDN annex lead on domestic section of chapter is pending.
- Annex 10: includes additions from EPA domestic activities – minor edits from ECCC

Subject: Revised: Master PRP - Jun 23 2:45pm

As discussed Jamie, here's the newer Master PRP... in this 2:45pm version I think I did everything we talked about:

- cleaned up (i.e. accepted) A4, A6 EPA tracked changes (I think I got all of them since they all made sense to me) – and currently my edits show up/remain but they're minor things
- added A7 into the Master PRP and accepted all EPA tracked changes – I inserted edits from DFO & OMOECC which will show as my/EC tracked changes
- added most of text I was waiting for (i.e. Intro fact check re. toxic reduction & deformities; A1 text from Jon re. CDN AOC accomplishments; GW Indicator text) – still waiting on A2 input from John M/Janette/Rob unless they sent that to Tricia, which I'll get tmr

So next step I think are for:

- EPA team + Chris to look at ECCC annexes
- EPA to send A3 – you may have sent to Tricia in which case I should get tmr
- Carla to look at the EPA chapters and look through some other things flagged for her.

Subject: Master PRP - Jun 23

EPA folks.. attached is the new Master PRP doc on behalf of Carla.. and further below you'll see a list of what was done / status of the various sections for your info. There are a couple things our side is still looking into / waiting for and we still need to get Sue Humphrey's review on Annex 4 in particular but in the interest of time we are sending this your way.

<< File: PRP MASTER - Jun 23.docx >>

Because my email can't currently receive any emails (oddly I can send) I wouldn't have received a response from Lynzi / Jamie re. A4 / A6); or any other EPA chapters that may have been sent. Probably best to send stuff / cc tricia.mitchell@canada.ca or call me if you need to 416-739-4899.

Ex Summary

- Minor edits from Carla for Chris' review

- Couple comment boxes to address remain

Intro

- All edits from Chris, Beth accepted
- Minor edits from Carla for Chris' review

Articles chapter

- Made new section/chapter; Minor edits from Carla for Chris' review
- Question: do you want to "text box" the list of 2014-16 Priorities? Don't really need to since linked to bnet.

Annex 1

- Chris' edits accepted; couple minor edits from Carla for Chris' review
- Few comment boxes to address
- Need new AOC map image if removing the blue triangle
- Text from Jon Gee to come re. eg's of AOC successes (pg 14)
- Need "clean" tables / graphics or original files for final production version

Annex 2

- Chris' edits accepted; couple minor edits or fixed text from Carla for Chris' review
- Need current SC organization membership to get logos
- Few comment boxes to address – and still waiting for input from John M, Janette, Rob

Annex 3

- EPA draft to come

Annex 4

- Received EPA draft from Lynzi Jun 21 but unsure if this draft was "Chris-approved"; all Beth's edits are acceptable; some additional text/minor edits from Carla proposed for Chris' review. Has been left as tracked version since unsure of status.
- Seem to be several comments boxes to address still (questions for Santina it seems)
- Chapter still needs work / has placeholders for further US text
- Carla to confirm whether to include Mary Thornburn/OMOECC input under domestic activities

Annex 5

- Some edits were made to simply/streamline text and apply the similar sort of edits to previous ch; Chris to review
- Question re. reference to CDN BW research studies. 2 options: 1) add US related BW research to the CDN list and post on bnet and then make the reference to bnet in the PRP [seems like a lot of work]; 2) include the 12 research papers in the PRP in a “text box” [simpler solution]
- Added GLRI-related text sent from Jamie
- Entire chapter needs tracked changes to be accepted / cleaned-up and sent to TC and USCG for their review then GLEC Co-Chairs then TC and USCG final approval

Annex 6

- Received EPA draft from Lynzi Jun 21 but unsure if this draft was “Chris-approved”; all Jamie & Lynzi’s edits are acceptable; some additional text/minor edits from Carla proposed for Chris’ review. Has been left as tracked version since unsure of status.
- Couple comment boxes indicated some additional input may be required
- Entire chapter needs tracked changes to be accepted / cleaned-up (and explanation of why/how things moved around) and sent to DFO and USFWS for their review then GLEC Co-Chairs then DFO and USFWS final approval

Annex 7

- EPA draft to come

Annex 8

- Some edits were made to simply/streamline text; Chris to review
- Waiting for revised text re. the GW SOGL Indicator from co-leads

Annex 9

- Some edits were made to simply/streamline text; Chris to review
- 1 comment box to address

Annex 10

- Some edits were made to simply/streamline text; Chris to review
- Placeholder for EPA to fill in domestic science activities
-
